Email: neus.perez@uca.es ORCID: 0000-0003-1914-7128

June 2026

Education

- Degree in *Marine Sciences*. University of Cadiz. Completion date:18/12/2002
- Master's Degree in *Management and assessment of noise pollution*. University of Cadiz. 28/12/2010
- Diploma of advanced studies (DEA). University of Cadiz. Completion date: 19/12/2005
- University Expert in Architectural Acoustics. University of Cadiz. Completion date: 27/12/2010

Training Courses (last 5 years)

- Introductory Course on AI in Applied Acoustics. University of Cadiz. Delivered by the University Institute for Research in Applied Linguistics (ILA). Date: 29/04/2026.
- Microcredential: Transforming Science into Impact. University of Cadiz, approved by the Academic Planning, Teaching Staff and Students Committee. Date: 14/10/2025-27/11/2025.
- Theoretical and Practical Course on Manual Handling of Loads and Pallet Truck Operation. Quiron Prevencion. Date: 05/11/2024.
- AI Applied to Marine Research. Datamecum. Date: 14/07/2025.
- Training and Advising Related to Acoustic Vector Sensor. Marsensing LDA. Date: 20/09/2024.
- Introduction to the Use of ChatGPT Artificial Intelligence (O_Z4623_22_23_01). University of Cadiz - Teaching and Research Staff (online). Delivered by CLIC International House Cadiz. Date: 12/05/2023.
- Introductory Python Course (O_Z2023_22_23_01). University of Cadiz - Teaching and Research Staff (online). Delivered by the Faculty of Sciences. Date: 09/02/2023.
- SILENCE-LP Acoustic Recorder. INMAR (online). Delivered by RTSys, Underwater Acoustics and Drones. Date: 30/11/2021.

Language

Spanish: Spoken- Native / Reading – Native / Writing -Native
Catalan: Spoken- Native / Reading – Native / Writing -Native
English: Spoken- Adequate / Reading – Good / Writing - Adequate

Current professional position: Research technician in underwater acoustics. Institution: University of Cadiz. Institute: Marine Research Institute (INMAR).

Professional Experience: Employment contracts

- Research Technician (Chapter VI). 03/07/2023-31/12/2025. University of Cadiz. Project: QUALIFICA. Position: Graduate research technician in underwater acoustics (researcher).
- Research Technician (PTA) - 01/01/2020-31/05/2023. University of Cadiz. Position: Support technician in underwater acoustics.
- Research Technician (Chapter VI). Underwater acoustic impact study of the “Electrical interconnection project between the Iberian peninsula and Ceuta”. Performing institution: Acoustic Engineering Laboratory, University of Cadiz (PI001354). Start-end date: 04/04/2019-04/10/2019.
- Freelance Acoustic Consultant. 01/10/2012-31/12/2019. Position: Graduate/engineer. Main activities and responsibilities: Underwater acoustic impact studies and sound propagation modelling for offshore, port and energy projects. Collaboration with Repsol E&P, AECOM and Tecnoambiente S.L.U.
- Research Technician in Underwater Acoustics. 04/04/2019-04/10/2019. University of Cadiz. Position: Graduate/engineer.
- Acoustics Technician. 01/12/2010-05/01/2012. Company: Gestion Medioambiental & Acustica ACUS-G. Position: Graduate/engineer.
- Freelance Acoustic Consultant. 01/09/2009-30/11/2010. Position: Graduate/engineer. Main activities and responsibilities: Acoustic measurements, analysis and technical report writing.
- Acoustics Technician. 08/01/2008-07/01/2009. Company: Ingenieria Acustica y Servicios, S.L. (INASEL). Position: Graduate/engineer.
- Freelance Acoustic Consultant. 01/06/2007-31/12/2007. Position: Graduate/engineer. Main activities and responsibilities: Noise maps and strategic noise maps.
- Specialist Laboratory Technician. *LIFE02NAT/E/8610: Conservation of cetaceans and marine turtles in the waters of Murcia and Andalusia*. Position: Specialist laboratory technician Start-end date: 25/10/2004-31/07/2006. University of Cadiz, Acoustic Engineering Laboratory.
- Freelance Consultant. 01/12/2002-31/10/2004. Institution: Spanish Cetacean Society. Position: Graduate/engineer.

Participation in research projects (last 5 years)

- Project name: *Posidonia soundscape: Conservation & music, Ibiza*. Performing institution: INMAR - University of Cadiz. Start-end date: 29/08/2024-present. Endorsed as a UN Ocean Decade Project.
- Project name: *SEANIMALMOVE: Monitoring the movement and population dynamics of marine and coastal vertebrates under anthropogenic impacts in a global change scenario*. Performing institution: INMAR, University of Cadiz. Start-end date: 03/2024-31/12/2025. Funding body: Andalusian Environment and Water Agency.
- Project name: *Monitoring underwater noise from the plugging and abandonment of Repsol E&P wells*. Performing institution: INMAR, University of Cadiz. Start-end date: January 2024-31/12/2025. Funding body: Alenta Medio Ambiente, S.L.
- Project name: *Scientific infrastructures for global change monitoring and adaptation in andalusia (INDALO)*. Performing institution: INMAR, University of Cadiz. Start-end date: 07/07/2021-30/12/2024. Funding body: Andalusian Environment and Water Agency.

Publications

- Marquez-Rodriguez, Alba, Perez-Gimeno, Neus, Daniel Benitez-Aragon, Gonzalo M. Arroyo, and Andres De la Cruz. 2026. "Iterative Deep Learning for Cetacean Whistle Detection in the Strait of Gibraltar." *Engineering Applications of Artificial Intelligence* 167:113756.
- Alba Marquez-Rodriguez, Neus Perez Gimeno, Miguel Angel Mohedano-Munoz, Manuel J. Marin-Jimenez, Eduardo Santamaria Garcia, Giulia Bastianelli, Anton Alvarez, Javier Garcia-Algarra, Marcos Novalbos, Gonzalo Munoz Arroyo, Andres de la Cruz, Irene Mendoza. In press. "Bridging the Gap Between Deep Learning and Ecology in the Acoustic Monitoring of Biodiversity." *Perspectives in Ecoacoustics*. Springer. Output type: Book chapter. Medium: Book.
- Renaud de Stephanis; Phillip Verborgh; Juan Manuel Salazar; Neus Perez Gimeno; Cristophe Guinet. "Summer Spatial Distribution of Cetaceans in the Strait of Gibraltar in Relation to the Oceanographic Context." *Marine Ecology Progress Series* 353, pp. 272-288. 12/2008. Output type: Scientific article. Medium: Journal.

Conference Publications (last 5 years)

- Neus Perez Gimeno, Alba Márquez Rodríguez, Margalida Massot Jaume and Jose Luis Cueto Ancela "Posidonia soundscapes: Integrating underwater acoustics, art, and artificial intelligence for the non-invasive monitoring of *Posidonia oceanica* seagrass beds" Oral presentation. XI Encuentro de Desarrollo Sostenible, Algeciras, Spain. May 2026.
- Neus Perez Gimeno, Jose Luis Cueto Ancela, Enrique Nava Caro. "Acoustic characterization of offshore oil platforms during production." Oral presentation. 3rd Luso-Spanish Hydrography Conference. Organizing institution: Hydrographic Institute of the Navy. Cadiz, Spain. October 2024.
- Neus Perez Gimeno, Gonzalo Munoz Arroyo, Jose Luis Cueto Ancela, Andres de la Cruz Munoz. "Cetaceans and marine soundscapes in the strait of Gibraltar: Preliminary results of the SEANIMALMOVE project." Oral presentation. *Acustica 2024*. Oral presentation. *Tecniacustica 24*. Organizing institution: Portuguese Acoustical Society (SPA). Faro, Portugal. September 2024.
- Neus Perez Gimeno, Jose Luis Cueto Ancela and Enrique Nava Caro. "Sounds generated by a fixed offshore oil and gas platform during production periods" Poster presentation. 11th Convention of the European Acoustics Association. Organizing institution: Forum Acusticum Euronoise. Malaga, Spain. June 2025.
- Neus Perez Gimeno, Gonzalo Munoz Arroyo, Jose Luis Cueto Ancela, Andres de la Cruz Munoz. "Cetacean Presence and Marine soundscapes in the strait of Gibraltar. SEANIMALMOVE Project" Poster presentation. 5th World Ecoacoustics Congress. Organizing institution: International Society of Ecoacoustics. Autonomous University of Madrid. July 2024.

Other merits (last 5 years)

- Academic teaching: Underwater acoustics and environmental acoustics. University degree: Master's degree in Acoustic Engineering. University of Cadiz.
- Supervisor of the Bachelor's thesis "*Experimental design in tanks for the analysis of noise exposure in small marine species*". Degree in Environmental Sciences. Presented: September 2024.
- Supervisor of the Bachelor's thesis "*Anthropogenic marine noise as an environmental stressor and its effects on the marine ecosystem: Search for biomarkers*". Double Degree in Environmental Sciences and Marine Sciences. Presented: June 2024.
